

How Accurately Can You Describe Yourself?

An Inventory for Comprehensive Self-Description

On the following pages, you will find some adjectives--special ones which are used primarily for the purpose of describing individual differences in basic psychological traits. These terms can be used to describe others, or to describe oneself.

Please use this list to describe yourself, and do so as accurately as possible. Describe yourself as you generally are now, not as you wish to be in the future. Describe yourself as you honestly see yourself, in relation to other persons you know of roughly your same age. So that you can describe yourself in a completely candid manner, your responses will be kept in absolute confidence, and no one will be permitted to see your self-description without your written permission.

You will receive two morps for completing this inventory. Since you can easily accrue morps in many other ways, you should not attempt this task unless you genuinely wish to complete it.

If you are not sure about the meaning of a term, put an asterisk (*) in front of it. Respond to such a term only after checking its meaning in a dictionary. Please respond to all of the terms. However, do not complete the inventory in one sitting. Ideally, you should not complete more than a page or two of terms at any one time. You should do other things for a few hours--or for a day--between each sitting. Try to find a comfortable, silent, and completely private place to work on this inventory.

Although the terms are arranged alphabetically by columns, you should respond row-by-row. That is, complete the three terms in the first row, then those in the second row, etc., until you reach the very bottom of the page. Try to respond to each term independently, without referring to your responses to previous terms.

After each term, write a number, indicating how well that term describes you, using the following rating scale:

Write if the term is:

- 1 extremely accurate as a self-description
- 2 very accurate as a self-description
- 3 quite accurate as a self-description
- 4 slightly accurate as a self-description
- 5 slightly inaccurate as a self-description
- 6 quite inaccurate as a self-description
- 7 very inaccurate as a self-description
- 8 extremely inaccurate as a self-description

BE SURE TO PROVIDE A NUMBER FOR EVERY TERM.
